Non-inductive wearing

Thin flagship smart audio glasses

Ultra-elastic | Ultra-thin | Ultra-light | Ultra-large sound range

Coupled automatic switch machine

Micro-transparent texture

With innovative technology
Create「a slim gift 」

Create slim temple design,

Solve the problem of body width and weight,

Bring smart glasses to sensorless wear.

For you who want to try smart glasses.

Ultra-thin 5.3mm

5.3mm

Thin and vivid

160mm^2 large sound range

Pleasant to the ears

Enjoy an immersive listening experience
with nothing in your ears.
Open listening design preserves clarity
and enhances layering.
Equipped with a 160mm^2 super-large sound range,
it brings the surging spatial stereo sound to the ears.

Custom speaker

large sound range

Professional tuning

Lighter this time
Easy to wear

The temple shell is made of TR90 material
Both light and resilient

~35g

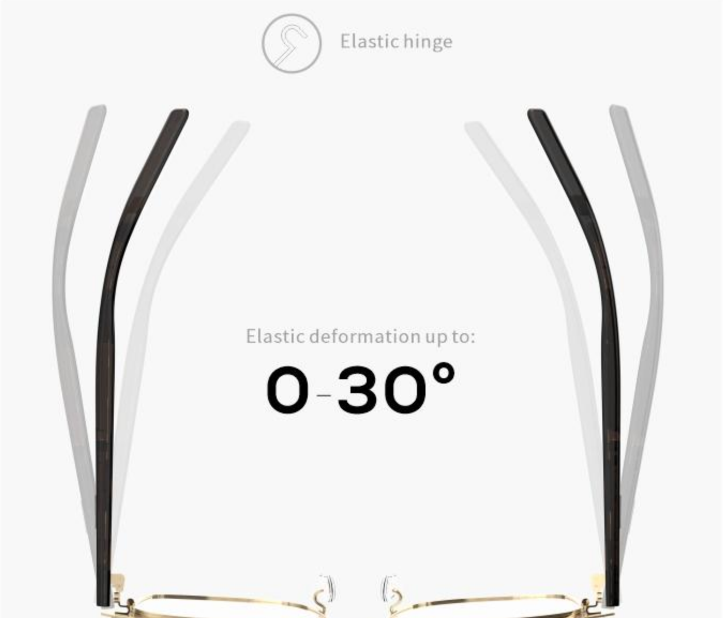
The whole machine is as light as

Light weight design

*The weight of different frames will vary

This elasticity is just right

Elastic hinge design for easy adjustment.
Ergonomic camber fitting head shape,
Suitable for more face shapes,
Constantly improve the comfort of wearing.



Elastic hinge

The super-elastic and flexible hinge can significantly reduce the clamping feeling of the temples,

Reduce frame distortion and provide the same comfort for all-weather wear.

Innovation and self-development

Coupled automatic switch machine

Small operations do big things

Automatic switch

Power on

Open the temples and the glasses will automatically power on.

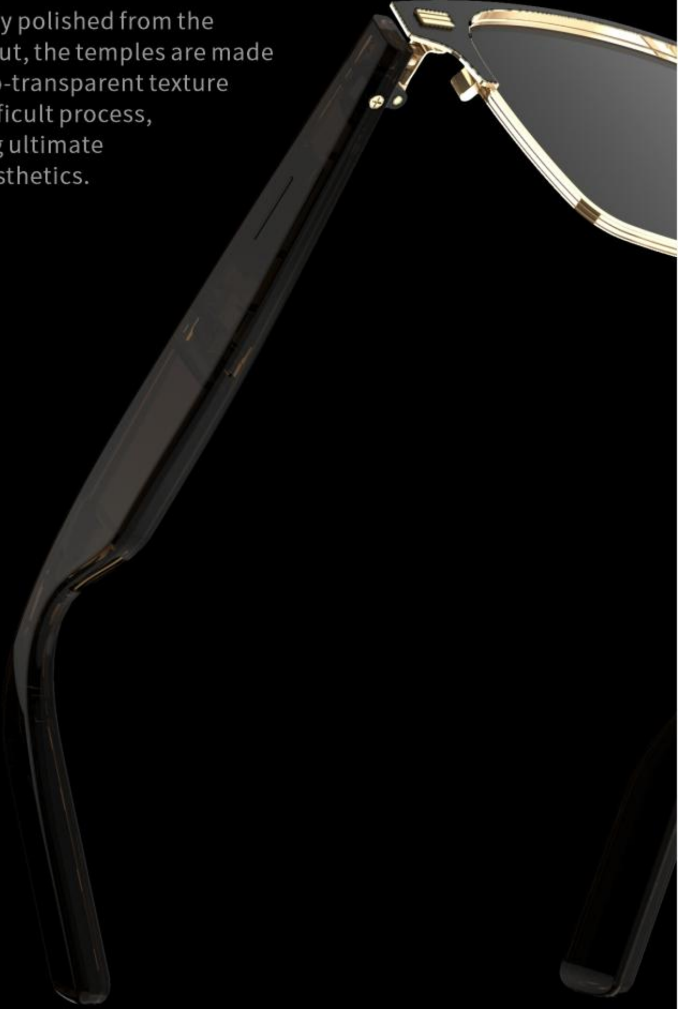
Power off

Close the temples and the glasses will automatically power off.

Micro-transparent texture

The beauty of craftsmanship

Carefully polished from the inside out, the temples are made of micro-transparent texture with difficult process, creating ultimate craft aesthetics.



Intelligent control
Double-sided sliding

touch sensor

The raised line design on the shell improves the blind touch experience.During use, you don't need to take out your phone frequently, and the multi-functions can be reached with one touch.

Left touch area

Finely crafted

Create every detail with ingenuity.

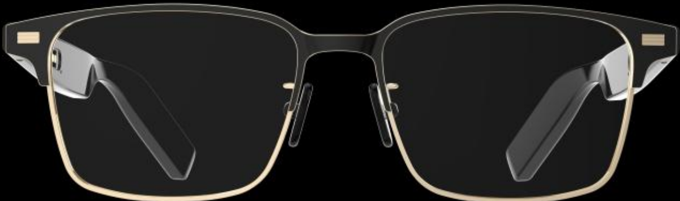
Frivolity
The beauty of form

Texture corner flower
High gloss look and feel

Adjustable nose pads
Comfortable and stress-free

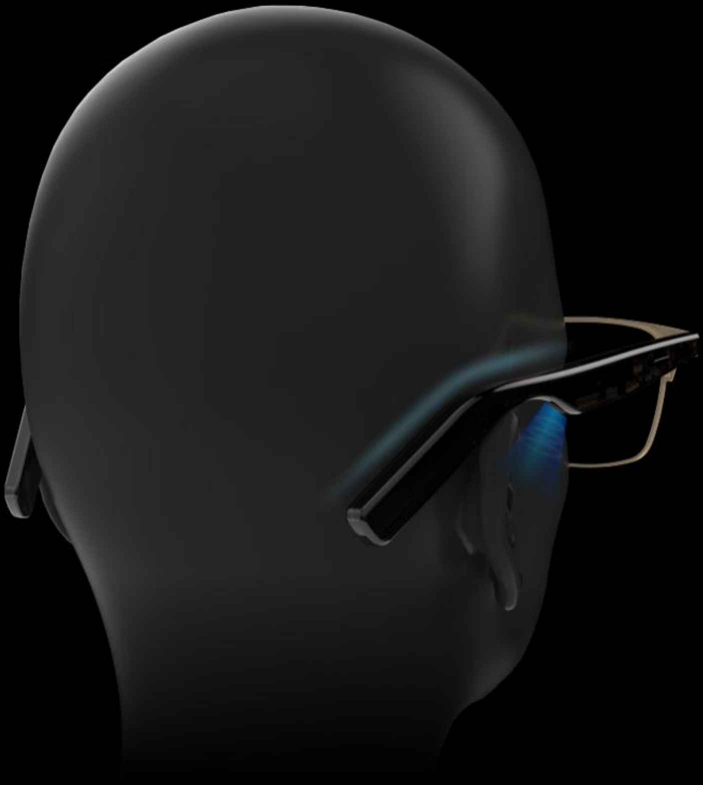
Groove design
Delicate layers

Black gold match
Elegant and light luxury



Better fit the curvature of the head ergonomic design

The ends of the temples are ergonomically designed,
Fits the shape of the head like traditional glasses,
Improve wearing comfort.



Technology,
Withstand wind and waves

Classic three-stage waterproof design,
Waterproof seals are segmented by area to
reduce water vapor penetration.
Easily cope with all kinds of waterproof life.

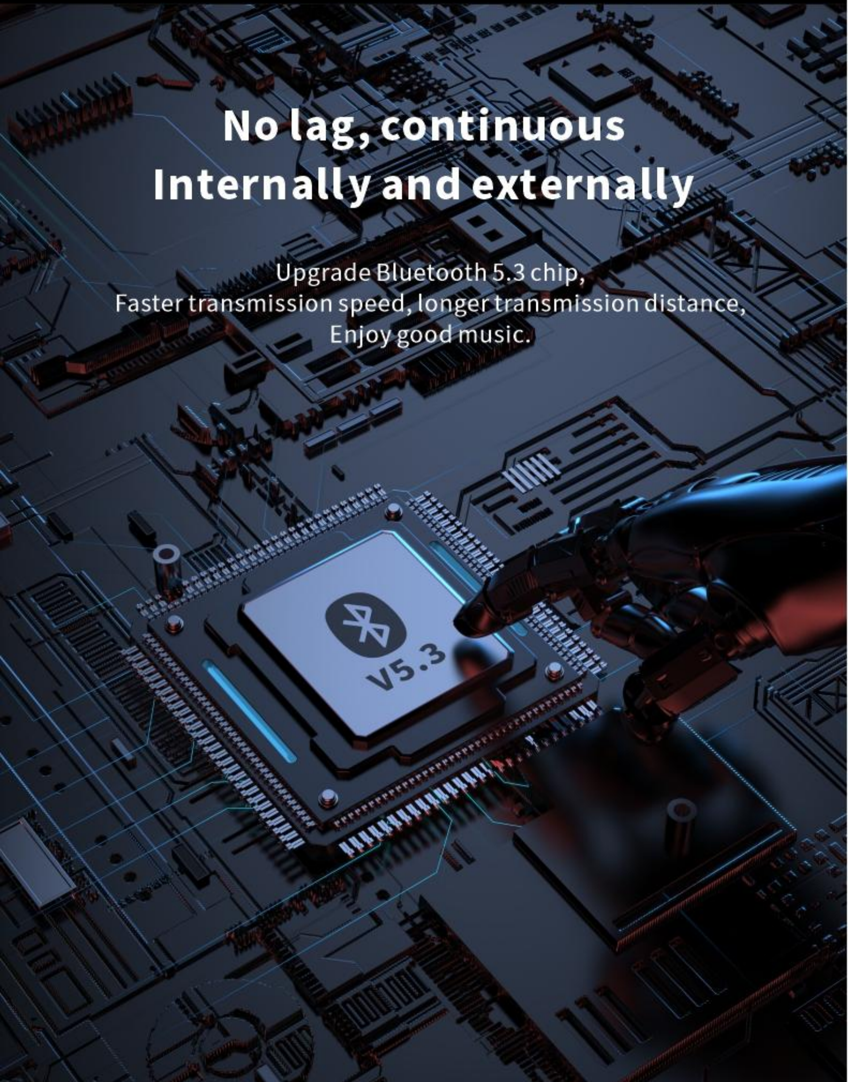
Sufficient power long-lasting battery life

Magnetic charging, the connector has its own magnetic force,
which can automatically absorb the temples in place.
Dual battery design, the power can be used at any time,
Make charging more convenient.

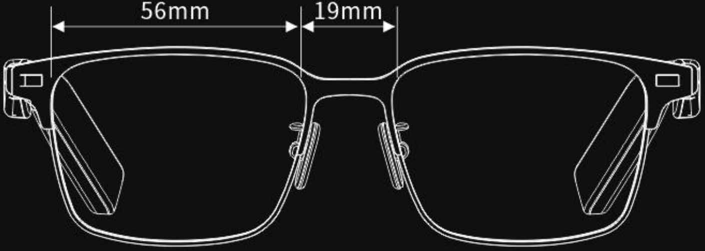
Standby time	Comprehensive use time more than
150 hours	6 hours

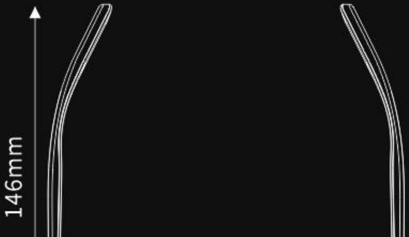
No lag, continuous
Internally and externally

Upgrade Bluetooth 5.3 chip,
Faster transmission speed, longer transmission distance,
Enjoy good music.

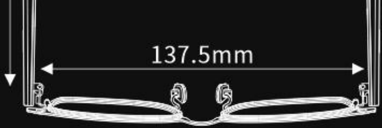


Product parameters





- **Temple materials:**
  TR90，Micro-transparent
- **Bluetooth :**
  V5.3
- **Power on/off :**
  Coupling switch
- **Battery capacity :**
  90mAh*2



- **Charging time :** ~1.5hours
- **Usage time :** ~6hours
- **Compatible system :** iOS/Android
